

WOVEN MAT | A perfect alternative of natural bamboo

Designed to replicate natural bamboo matting's beauty, ONETHATCH Woven Mat is handcrafted from durable, recyclable, and non-toxic synthetic fiber. Wherever you install our faux bamboo decorative mats, you'll be amazed at how well it withstands inclement climate conditions, pest damages, and general wear & tears for decades while still looking gorgeous.

Variations

Available with three standard colors below. Custom color is available for commercial projects.

Walnut

Teak

Golden Oak

Guarantee

ONETHATCH Woven Mat has been stringently tested by the international authorities to guarantee decades of worry-free beauty.

20-year warranty against rot, decay, and sudden color fading.

Fire Retardant

Safety should never be a choice. All matting products are made from our formulated class A fire-retardant materials.

Weather Resistant

We take pride in the quality of our synthetic weaved mat, which is strong enough to last for decades.

Mold Resistant

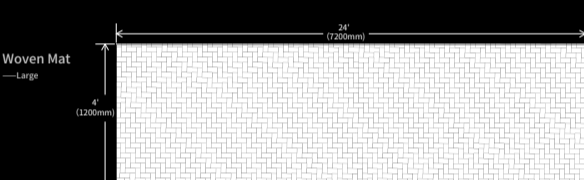

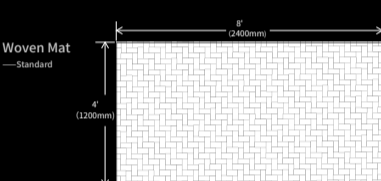

Crafted from high-grade PA6 resins, our synthetic woven mat is highly mold, rot, and insect resistant.

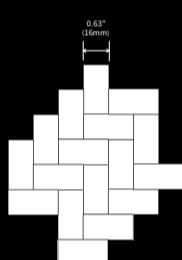

Non-Toxic

Our artificial woven mats are also recyclable and eco-friendly as they contain no polyvinyl chloride (PVC).

Installation Guide

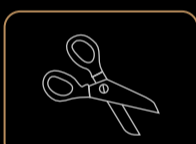

Tools ▶

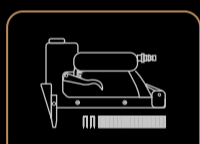

Tape Measure

Electric Welder

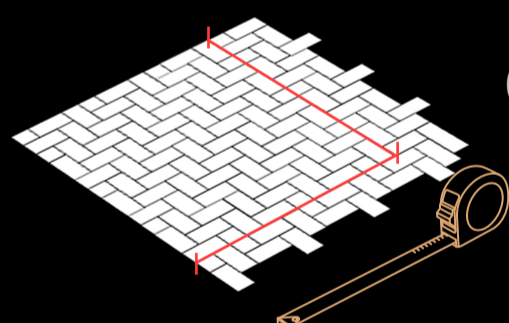

Scissor

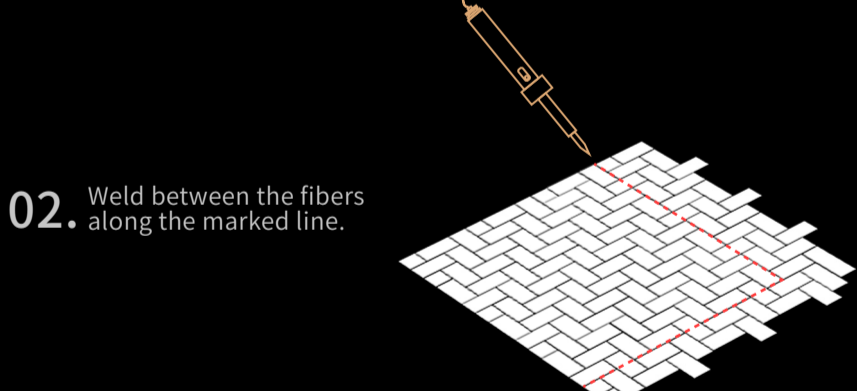

Staple Gun

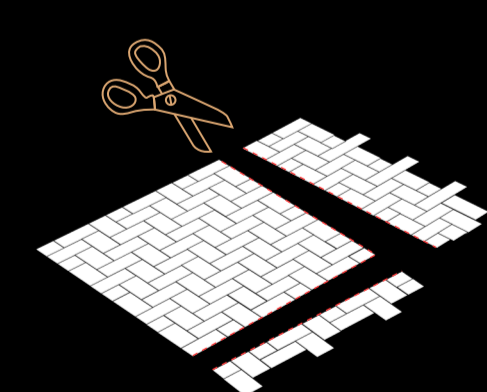

Preparation ▶

01. Measure and mark the cutting lines.

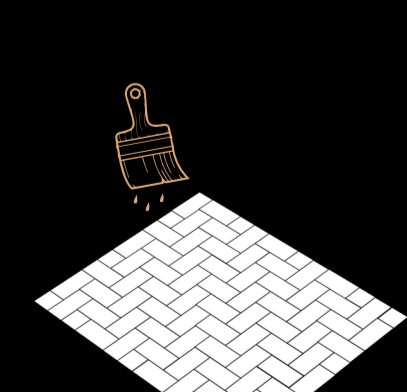

02. Weld between the fibers along the marked line.

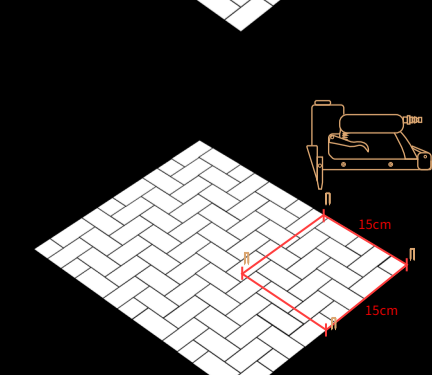

03. Cut the material along the line.

Installation ▶

01. Coat the back of the material with contact cement adhesive and attach it to the substrate.

02. Place a nail or staple every 15cm in each direction.
